

Our Mission

Kaleidoscope Family Solutions, Inc. (KFS) believes in the ability to construct an opportunity for every individual to achieve their own mission and goals in life. For instance, that would be through employment, independent living skills or living on their own. We believe in the experience of community. Most importantly, if we are integrated into our community, that shapes our lives and allows for growth and independence!

Kaleidoscope Family Solutions provides a collection of services designed to help individuals achieve their dreams.

Why Kaleidoscope?

As a family owned and operated organization, we understand the importance of high quality care and support for you and your family. An important part of our mission is to celebrate each individual's differences and understand that everyone is unique and has their own way of experiencing and contributing to the world. Our staff takes the time to meet and establish a relationship with every individual and family and help them to understand the services we provide. We understand that it is important to find a good match for you, and we pride ourselves on our thorough recruiting, interviewing and training process. This comprehensive process allows for KFS to provide our families with high quality staff. Our staff is dedicated to establishing positive relationships with every individual and family.

Promoting Personal Growth

In order to be successful in reaching a goal, it is important for each individual and their supports to be involved and engaged in the process. Kaleidoscope takes a holistic and person-centered approach when creating goals. We incorporate recreation, socialization, community involvement, activities of daily living and vocational skills into our individual's lives as a way to offer enrichment. In addition, we tie together each person's strengths and interests in order to create personalized life plans. Kaleidoscope is dedicated to helping individuals overcome obstacles, accomplish their goals and gain independence.

Community Participation

Community Participation is designed to assist individuals in engaging in their community independently and in a meaningful way. Individuals can explore and discover their interests, develop the skills they need to participate in the activities they wish to be a part of, and learn independent living and interpersonal skills.

Individual Supported Employment

Individual Supported Employment provides intensive, ongoing assistance to enable individuals to perform in a regular work setting. Supports may include assisting the individual to locate a job or develop a job on behalf of the individual. Supported employment includes supervision and training.

Day Services

This service is designed to assist with increasing and maintaining independence with adaptive skills, socialization, activities of community living or daily living. Activities should include community engagement.

Creating a Colorful Difference

Loyalty

“Kaleidoscope takes the time to create lasting partnerships between clients and their providers. We can always rely on their team to fully evaluate the treatment goals before assigning a provider for services. The word is confidence – we have confidence that consumers will thrive with the Kaleidoscope team.”

– Service Coordinator

Dedication

“During our team meeting we were crossing off behaviors that my daughter used to exhibit and no longer does because of everything your team has accomplished. I have seen extreme positive changes and accredit the majority of her success to her ability to bond with your staff. Kaleidoscope's commitment to my daughter is amazing.”

– A Thankful Parent
