

Our Mission

Kaleidoscope Family Solutions, Inc. (KFS) believes in the ability to construct an opportunity for every individual to achieve their own mission and goals in life. For instance, that would be through employment, independent living skills or living on their own. We believe in the experience of community. Most importantly, if we are integrated into our community, that shapes our lives and allows for growth and independence!

Vision Statement

Kindness

PROUD TO BE A PROVIDER OF

DE Division of Prevention & Behavioral Health

- Outpatient Mental Health
- Therapeutic Support for Families

Kaleidoscope Family Solutions provides a collection of services designed to help individuals achieve their dreams.

Why Kaleidoscope?

As a family owned and operated organization, we understand the importance of high quality care and support for you and your family. An important part of our mission is to celebrate each individual's differences and understand that everyone is unique and has their own way of experiencing and contributing to the world. Our staff takes the time to meet and establish a relationship with every individual and family and help them to understand the services we provide. We understand that it is important to find a good match for you, and we pride ourselves on our thorough recruiting, interviewing and training process. This comprehensive process allows for KFS to provide our families with high quality staff. Our staff is dedicated to establishing positive relationships with every individual and family.

Outpatient Mental Health

Outpatient therapy is an individualized treatment provided in the least restrictive environment possible to address a wide variety of concerns, from behavioral concerns and relational conflicts to mood issues like depression or anxiety. Outpatient therapy focuses on enhancing the child's capacity to find solutions and identify and utilize resources. Services are client and family-driven.

Therapeutic Support for Families

Therapeutic Support for Families (TSF) provides psycho-educational, therapeutic, and supportive services for parents/caregivers and youth who need support in developing new skills to manage emotional and behavioral concerns. They may be provided individually or in family and/or group settings. TSF services are tailored to meet the unique needs of the youth and family. These services may be available at specific times of day (such as in the morning, evening or bedtime) to address needs of the family and youth. Structured outings and activities may be scheduled and include both the youth and caregivers, allowing them to practice new skills in real life situations with support and coaching from the TSF, as appropriate. These services are delivered by trained, skilled paraprofessionals.

Encouraging Excellence

Our goal is to help each individual achieve his or her highest potential. It is important to partner with each person in order to guide them to reach their highest level of independence. Our staff provides support and encouragement through various areas of independent functioning and helps celebrate successes!

Creating a Colorful Difference

Loyalty

“Kaleidoscope takes the time to create lasting partnerships between clients and their providers. We can always rely on their team to fully evaluate the treatment goals before assigning a provider for services. The word is confidence – we have confidence that consumers will thrive with the Kaleidoscope team.”

– Service Coordinator

Dedication

“During our team meeting we were crossing off behaviors that my daughter used to exhibit and no longer does because of everything your team has accomplished. I have seen extreme positive changes and accredit the majority of her success to her ability to bond with your staff. Kaleidoscope's commitment to my daughter is amazing.”

– A Thankful Parent
