PROUD TO BE A PROVIDER OF

CBHI & BCHA Services

- In Home Therapy
- Therapeutic Mentoring

Kaleidoscope Family Solutions provides a collection of services designed to help individuals achieve their dreams.

Why Kaleidoscope?

As a family owned and operated organization, we understand the importance of high quality care and support for you and your family. An important part of our mission is to celebrate each individual's differences and understand that everyone is unique and has their own way of experiencing and contributing to the world. Our staff takes the time to meet and establish a relationship with every individual and family and help them to understand the services we provide. We understand that it is important to find a good match for you, and we pride ourselves on our thorough recruiting, interviewing and training process. This comprehensive process allows for KFS to provide our families with high quality staff. Our staff is dedicated to establishing positive relationships with every individual and family.

Promoting Personal Growth

In order to be successful in reaching a goal, it is important for each individual and their supports to be involved and engaged in the process. Kaleidoscope takes a holistic and person-centered approach when creating goals. We incorporate recreation, socialization, community involvement, activities of daily living and vocational skills into our individuals' lives as a way to offer enrichment. In addition, we tie together each person's strengths and interests in order to create personalized life plans. Kaleidoscope is dedicated to helping individuals overcome obstacles, accomplish their goals and gain independence.

Our Services

In Home Therapy (IHT) is a structured, consistent, strength-based therapeutic relationship between a Masters level clinician, a paraprofessional BA level clinician, the identified youth (under the age of 21) and family for the purpose of treating the youth's behavioral health needs. This includes improving the family's ability to provide effective support for the youth to promote his/her healthy functioning within the family.

Interventions are designed to enhance and improve the family's capacity to improve the youth's functioning in the home and community. The goal is to prevent the need for the youth's admission to an inpatient hospital, psychiatric residential treatment facility, or other treatment setting.

Therapeutic Mentor (TM) service is a support service that pairs a youth (under the age of 21) with an adult mentor for the purpose of building and enhancing the youth's social, communication, and life skills. The Therapeutic Mentor works one-on-one with the youth to achieve goals that are guided by an outpatient therapist, in-home therapy provider, or an intensive care coordination team.

TM services include supporting, coaching, and training the youth in age-appropriate behaviors, interpersonal communication, problem solving, conflict resolution, and relating appropriately to others in recreational and social activities. A Therapeutic Mentor promotes a youth's success in navigating various social contexts, learning new skills, and making progress living within their community. Therapeutic Mentoring services can be delivered in the home, school, child care, and other community or social and recreational settings.

Creating a Colorful Difference

Loyalty

“Kaleidoscope takes the time to create lasting partnerships between clients and their providers. We can always rely on their team to fully evaluate the treatment goals before assigning a provider for services. The word is confidence – we have confidence that consumers will thrive with the Kaleidoscope team.”

– Service Coordinator

Dedication

“During our team meeting we were crossing off behaviors that my daughter used to exhibit and no longer does because of everything your team has accomplished. I have seen extreme positive changes and accredit the majority of her success to her ability to bond with your staff. Kaleidoscope's commitment to my daughter is amazing.”

– A Thankful Parent
