Approved for
Community Care Program

Kaleidoscope Family Solutions provides a collection of services designed to help individuals achieve their dreams.

Why Kaleidoscope?

As a family owned and operated organization, we understand the importance of high quality care and support for you and your family. An important part of our mission is to celebrate each individual's differences and understand that everyone is unique and has their own way of experiencing and contributing to the world. Our staff takes the time to meet and establish a relationship with every individual and family and help them to understand the services we provide. We understand that it is important to find a good match for you, and we pride ourselves on our thorough recruiting, interviewing and training process. This comprehensive process allows for KFS to provide our families with high quality staff. Our staff is dedicated to establishing positive relationships with every individual and family.

Promoting Personal Growth

In order to be successful in reaching a goal, it is important for each individual and their supports to be involved and engaged in the process. Kaleidoscope takes a holistic and person-centered approach when creating goals. We incorporate recreation, socialization, community involvement, activities of daily living and vocational skills into our individuals' lives as a way to offer enrichment. In addition, we tie in each person's interests, likes and dislikes in order to have a plan unique to each individual. Kaleidoscope is dedicated to helping individuals overcome obstacles, accomplish their goals and gain independence.

Forming Supportive Relationships

The focus of our services is to create opportunities for each individual that allow them to be more involved in their local community. We are always looking for unique ways to help build connections between our team, the individuals we serve and our communities. Some of the ways we have fostered these connections include: monthly support groups, weekly activities that encourage peer socialization, volunteering and employment opportunities.

Encouraging Excellence

Our goal is to help each individual achieve his or her highest potential. It is important to partner with each person in order to guide them to reach their highest level of independence. Our staff provides support and encouragement through various areas of independent functioning and helps celebrate successes!

Creating a Colorful Difference

Loyalty

“Kaleidoscope takes the time to create lasting partnerships between clients and their providers. We can always rely on their team to fully evaluate the treatment goals before assigning a provider for services. The word is confidence – we have confidence that consumers will thrive with the Kaleidoscope team.”

– Service Coordinator

Dedication

“During our team meeting we were crossing off behaviors that my daughter used to exhibit and no longer does because of everything your team has accomplished. I have seen extreme positive changes and accredit the majority of her success to her ability to bond with your staff. Kaleidoscope's commitment to my daughter is amazing.”

– A Thankful Parent
